Research Question

**WHEN ARE STUDENTS USING
BUFF PORTAL AND FOR WHAT
PURPOSES?**

FOCUSED QUESTIONS

Do the reasons users access Buff Portal influence how often they use it?

Does the ease of finding resources on Buff Portal impact how often users access the platform?

COLLECTION PROCESS

We collaborated as a group in a Google Docs document to create the questions we wanted to ask.

STEP 1

After finalizing the questions, we transferred them to Qualtrics and launched our survey.

STEP 2

Once we received all the responses, we moved the data to Google Sheets for analysis.

STEP 3

RECRUITMENT

RELATIONSHIP IN DATA

*Usage_reason * Frequency_usage*

- Usage_reason and Frequency_usage provides a comprehensive view of user engagement, enabling deeper insights into how and why students interact with Buff Portal.
- This approach facilitates data-driven decisions aimed at improving user experience and increasing overall satisfaction.

- Feedback_resources alongside Frequency_usage provides insights into how perceptions of resource accessibility affect user engagement with Buff Portal.
- This relationship highlights areas for improvement and informs strategies for enhancing user experience.

*Feedback_resources * Frequency_usage*

CONCLUSIONS

- Users are mainly accessing Buff Portal for classes, registration and advising, and finances.
 - The other four home-card categories (i.e., housing, dining and transportation, professional development, health and safety, and events, activities and campus info) are not used nearly as often.
 - There was a bell curve shape when it came to user familiarity and feature usage. Users with a moderate familiarity of Buff Portal were more likely to use more features. The more familiar the user was, the less features they used; we found it was the same for users that were on the low end of the familiarity scale.
