EDUCATION

UNIVERSITY OF COLORADO BOULDER

Bachelor of Science Information Science, m. Economics, Certificate in User Experience

May 2026

Dean's List Scholar

CERTIFICATIONS: Social Behavioral Research - Citi Program: Human Research

WORK EXPERIENCE

ATS STUDENT HARDWARE LAB ADMINISTRATOR

October 2025 - May 2026

University of Colorado Boulder - Office of Information Technology

- Co-developed an automated **lab monitoring dashboard** script to visualize equipment status and operational metrics, improving visibility into system performance.
- Analyzed operational data to identify recurring infrastructure issues and **inform usability and workflow improvements** across campus labs.
- Increased lab monitoring coverage by **200% through improved data tracking and reporting processes**, strengthening reliability metrics.
- Redesigned **lab walkthrough documentation and tracking workflows**, improving data capture, reporting consistency, and team coordination.

PROJECT COORDINATOR & SYSTEMS ARCHITECT

August - December 2025

University of Colorado Boulder - Digital Legacy Clinic (Jed Brubaker, PhD)

- Designed and documented an **End-of-Life (EOL) Standard Operating Procedure (SOP)** for digital asset management, creating structured workflows that improved onboarding and operational clarity.
 - Conducted **comparative analysis of digital legacy platforms**, synthesizing research into structured system documentation and design insights.
 - Served as primary client liaison, **translating user needs into system workflows and documentation** for internal teams.
 - Produced analytical case studies of digital asset scenarios, converting research findings into **decision-support materials and training resources**.
-

PROJECTS

CHEYENNE MOUNTAIN ZOO WEBSITE REDESIGN - UX Research, Interaction Design, Wireframing

- Analyzed the Cheyenne Mountain Zoo website to identify **navigation and usability challenges for first-time visitors**.
- Developed **user journeys, task flows, and user flows** to map **visitor goals and key site interaction pathways**.
- Designed **low-, mid-, and high-fidelity wireframes** to **redesign key pages**, improving **navigation clarity, user comprehension, and task completion for first-time visitors**.
- Applied **brand elements, visual hierarchy, and color theory** to create a more **cohesive and accessible interface**.

UX AUDIT — YMCA OF NORTHERN COLORADO WEBSITE - Heuristic Evaluation, UX Research

- Conducted **heuristic evaluation using Nielsen's 10 usability heuristics** to assess **navigation, interface clarity, and overall user task completion**.
 - Identified **usability issues affecting first-time visitors and new users** and synthesized findings into **actionable, user-centered design recommendations**.
 - Developed **user personas and user journey insights** to highlight **barriers in common site interactions**.
-

SKILLS

UX Research & Design: User Research, Heuristic Evaluation, Usability Testing, User Personas, User Journeys & Flows, Task Flows, Information Architecture, Wireframing (Low/Mid/High Fidelity), Interaction Design, Accessibility & Inclusive Design.

Design & Prototyping Tools: Figma, Miro, Canva, Prototyping, Interface Design, Visual Design Principles, Color Theory, Typography, Iconography, Brand Systems.

Data Visualization & Communication: Tableau, Power BI, Datawrapper, Altair, Matplotlib.

Technical: TypeScript, Python, SQL, R, Pandas, NumPy, HTML, CSS, React, Data Analysis.
